17 January 2010

Dear Sir

Letter of support for the CODA Music Project

I am writing to confirm our support for this music programme. As a key partner in the project's development through the New Milton Youth and Play Forum and through its pilot phase in November 2007, the New Milton Police / Hampshire Constabulary are committed to the project in 3 ways:

Through tangible support from police officers presence at music sessions where appropriate or required

Through participation in the steering group for the project

By monitoring the project's impact on incidences of anti-social behaviour in Ashley and New Milton during the course of the project

Through these actions we aim to continue to play a key role in the programme and to support its development in 2010.

Sincerely

John McGonigle
Lymington and New Milton Sector Inspector
